About me

A senior frontend engineer passionate about user experience with a meticulous attention to detail, striving to create unique interactive experiences across the different screens.

Over 18 years developing complex applications in high-pressure environments with experience in dealing directly with new and existing clients.

I help businesses succeed in building Single Page Applications by making sure their software is optimized, well-tested, maintainable and scalable.

I also work on the backend with Node.js, designing and building REST API and I am currently learning GraphQL and golang.

Principal skills

I have in depth knowledge and delivery experience in the following areas:

- SPA application development: both with Angular (2+) and React.
- Frontend development: Redux, rxjs, ES6/Typescript, HTML 5, CSS3, Hugo
- Frontend architecture and deployment: node scripts, Webpack, SystemJS, Jenkins
- TDD: Jasmine/Karma, Chai/Mocha, Jest
- Backend: Node.js/Express, REST API design, PostgreSQL
- Cloud: Google App Engine, Google Datastore, AWS (EC2, S3, CloudFront)
- Git, Agile development (Scrum, Jira)

Work experience

- since 01/2017 ● **Senior Frontend Developer • European Commission | Brussels**
I am currently working on the revamping of an old platform to manages the Europaid funds around the world. At the beginning of the project I developed a few feature modules. Currently, I am working on the Core Module, front-end architecture optimisation as well as cross functionalities (corporate search, help tools...)
Tools & Tech: Angular, Redux, rxjs, Node.js, Typescript, Jasmine.
- 09/2016 01/2017 ● **Senior Frontend Developer • William Hill | Gibraltar**
I worked on the migration of the current sport betting website to a component base architecture in React. With peaks of up to 400 customer transactions per second and the website beeing accessed on low-end devices, a lot of attention was put on performance and optimisation to make sure the website ran smooth for all users.
Tools & Tech: React, Redux, Webpack, Node.js, ES6, Jenkins.
- Since 09/2015 ● **Founder and Full stack JavaScript Developer • Silent drop | Madrid, Spain**
After my experience with wysic I decided to work on a new platform “Silent drop”. A blog/movies application to share content about environment, personal growth and the sharing economy. The platform is written in Angular (2+) and the CMS in React. As it is a personal project I am working on the design/UX, frontend and the backend.
Tools & Tech: Angular (2+), React, Node.js, REST API, AWS EC2, AWS S3, Google Datastore, HTML5, SASS, Webpack, Jenkins, Imgix, Google Analytics
- 08/2015 09/2016 ● **Technical Leader / Senior Frontend Developer • Sopra Steria | Madrid, Spain**
Lead frontend developer and scrum master for several responsive, mobile first, Single Page Application built in AngularJS. One of them was brought from concept to delivery in 3 months. The code was deployed through CI with Jenkins to a local server for the QA team and before each release to the client's acceptance server.
Frontend developer of a hybrid HTML5/Cordova application for iOS and Android with Ionic. Agile Development.
Tools & Tech: AngularJS, Ionic, JavaScript, SASS, HTML5, CSS3, Cordova, Gulp, Jenkins.
